[Marin to widen vaccine access to 65-plus bracket](#)

Marin County will expand the pool of people eligible for coronavirus vaccines to residents 65 and older beginning next week, the county's public health officer said Monday.

The change represents the first time that many of the roughly 33,000 Marin residents between the ages of 65 and 74 will be able to book appointments to get vaccinated. The county has so far reserved its limited supply of vaccine doses for residents age 75 and older, in addition to people living in senior care centers, health care workers and other occupational groups.

Appointments for vaccination can be made at coronavirus.marinhhs.org after 12 on Thursday.

Individuals with coverage through Kaiser and Sutter Health should contact their doctors for appointments.

vaccinations and tests.

SEA CHANGE[®] PROJECT

REMEMBER... YOU ARE WILD!

Craig Foster
Co-founder of *Sea Change Project*,
creator of *My Octopus Teacher*

Dr Sylvia Earle
Marine biologist, explorer,
founder of *Mission Blue*

On February 10th, 2021 at 10:00 am PST, Craig and Dr. Earle will have an informal conversation to discuss his experience freediving in one specific area of the kelp forest of the False Bay Hope Spot, and how he developed a deep connection with a creature (the octopus, of course!) whose lineage goes back 400 million years.

The duo will also discuss the Sea Change Project, a group co-founded by Craig, dedicated to the protection of the South African kelp forest.

Have a question for Craig Foster or Dr. Earle?
We will have a brief Q&A at the end of the webinar.

[Madam of San Francisco, Mayor of Sausalito: The wild life of one of Marin County's most devoted civil servants](#)

“The big question always was if the red light in the second story window of Valhalla, her restaurant, was more than just a decoration,” Taylor says wryly. “But I never heard of any of Sally’s girls working there — or of them becoming members of the Sausalito Woman’s Club.”

[Snoopy and 'Peanuts' friends are back in new animated series](#)

Snoopy and his “Peanuts” friends are back in a new animated series on Apple TV+ with the imaginative beagle taking center stage. Creators of “The Snoopy Show” stuck to the stories and the animation from the original comic strip created by cartoonist Charles M. Schul

And the People Stayed Home

And the people stayed home. And read books, and listened, and rested, and exercised, and made art, and played games, and learned new ways of being, and were still. And listened more deeply. Some meditated, some prayed, some danced.

Some met their shadows. And the people began to think differently. And the people healed. And, in the absence of people living in ignorant, dangerous, mindless, and heartless ways, the earth began to heal.

And when the danger passed, and the people joined together again, they grieved their losses, and made new choices, and dreamed new images, and created new ways to live and heal the earth fully, as they had been healed.

[16 Must-See Films To Inspire Architects and Architecture Lovers](#)

Whether you need a great film for a quiet night in or just some background noise to help you get through your latest creative project, we've got some picks that are sure to inspire you with great stories and incredible scenes.
