**Why the radical idea still has power today**

Do you see the arrow between the second "E" and the "x" ?

How to use a skipping rope.

## Grandparents and Kids

\* Children's Logic: "Give me a sentence about a public servant," said a teacher. The small boy wrote: "The fireman came down the ladder pregnant." The teacher took the lad aside to correct him. "Don't you know what pregnant means?" she asked. "Sure," said the young boy confidently. "It means carrying a child."

dog. The children started discussing the dog's duties.

"They use him to keep crowds back," said one child.

"No," said another. "He's just for good luck."

A third child brought the argument to a close. "They use the dogs," she said firmly, "to find the fire hydrants."

\*A 6-year-old was asked where his grandma lived. "Oh," he said, "she lives at the airport, and whenever we want her, we just go get her. Then, when we're done having her visit, we take her back to the airport."

\* Grandpa is the smartest man on earth! He teaches me good things, but I don't get to see him enough to get as smart as him!

\* My Grandparents are funny, when they bend over, you hear gas leaks and they blame their dog.

The world's most famous bike race. The "R" in "Tour" is a cyclist. The yellow circle is the front wheel of a bicycle, the "O" is the back wheel.
